

NINA VIDMAR

BLOOM DE GEMME

CERTIFICATE

THE CERTIFICATE OF AUTHENTICITY

Please be secure in the knowledge that every piece of NINA VIDMAR fine jewellery is furnished with a Certificate of Authenticity from the House. We assign a dated serial number that is unique to your jewel, along with the date of your purchase, so you can be confident that you are receiving a guaranteed original jewellery piece, designed exclusively and crafted by NINA VIDMAR. Based on your Certificate Serial Number you can always check with us whether the piece is genuine and issued by our House.

GEMOLOGICAL REPORT

For all individual precious stones like Diamond, Ruby, Sapphire and Emerald; if the weight of individual stone weight is over 0.30 carats have their own gemological report from respected gemological laboratories such as GIA and AGS. This certificate formally acts as the identity card of the specific gemstone. This means that all of the stone's characteristics like carat, cut, color or origin are stated on this report. It is most important for you to carefully store it as this grading report is an important document and the only issued copy of it. Neither the House nor the Institute that issued the report retain copies of it.
